

Deficit Reduction Act (DRA) Hospital–Acquired Condition (HAC) Measures Data Dictionary

Term Name	Variable Name	Definition
Provider ID	Provider_ID	Indicates the provider's CCN ID (6-digit format).
DRA HAC Measure	Measure	Indicates the measure name for the specific DRA HAC measure. There are four DRA HAC measures: "Foreign Object Retained After Surgery;" "Air Embolism;" "Blood Incompatibility;" and "Falls and Trauma (includes fractures, dislocations, intracranial injuries, crushing injuries, burns, other injuries)."
DRA HAC Measure Rate	Rate	Indicates the provider's DRA HAC measure rate result, for all four DRA HAC measures. All four DRA HAC measures' rates are reported as observed rates per 1,000 discharges.
DRA HAC Measure Rate Footnote	Footnote	Indicates the provider's DRA HAC measure rate result's footnote, for all four DRA HAC measures. Available footnote values include: "23," which indicates: "The data are based on claims that the hospital or facility submitted to CMS. The hospital or facility has reported discrepancies in their claims data."
DRA HAC Measure Start Quarter	Start_Quarter	Indicates the first quarter of the DRA HAC measure's discharge period, for all four DRA HAC measures.
DRA HAC Measure End Quarter	End_Quarter	Indicates the last quarter of the DRA HAC measure's discharge period, for all four DRA HAC measures.
